

California Legislature

Assembly General Research Committee

ROOM 320, STATE CAPITOL

FEB 19 1970

February 17, 1970

Dr. Joshua Lederberg
Professor of Genetics
Stanford University School of Medicine
Stanford, California 94305

Dear Dr. Lederberg:

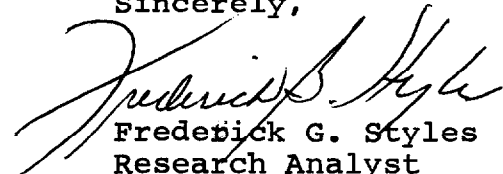

I am forwarding herewith a preliminary and unedited version of our report to the Assembly Select Committee on Environmental Quality. I understand that Al Lipson discussed this effort with you, and you indicated your interest.

We are under a very tight deadline insofar as preparing the final report, and we hope to wrap it up this week. We would, however, value your comments and suggestions, either by mail or by telephone.

I am sure you will understand that since the report has not yet been presented to or reviewed by the Committee, it is confidential, and we would appreciate your cooperation in maintaining that status.

Please contact me or Al directly (916-445-8760) if we can clarify any of the findings or recommendations of the report, or if you wish to discuss your reaction to it. You may be sure that your interest in assisting us is greatly appreciated.

Sincerely,

Frederick G. Styles
Research Analyst
